

NYRIAD^{IM}

24 MONTHS

AUT SKA 2016

Matthew A. Simmons
CEO

UPDATE

12 months since the last colloquium, where we proposed our iotadrivTM

We have raised over \$3 Million of seed funding

Now have a team of over 30

Have developed the core architecture for our iotadrivTM software

We are planning an open source beta release in April.

Ambigraph™

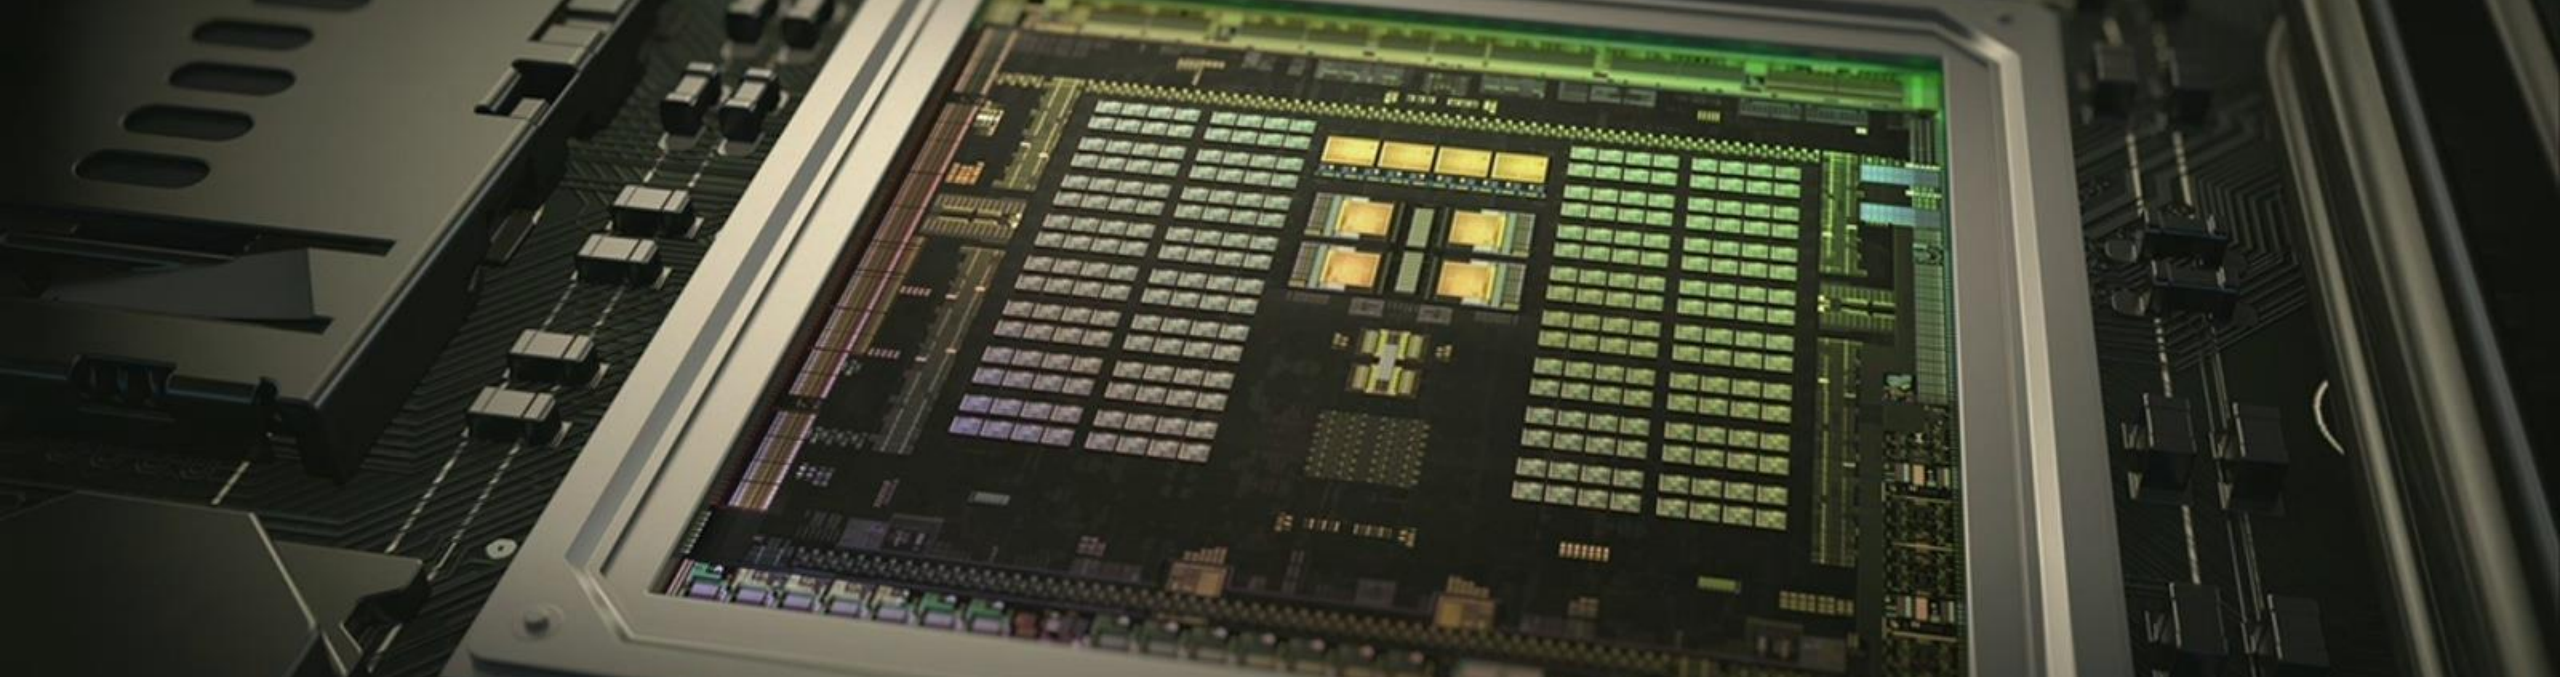

A modular architecture for open source data processing.

- Can enable on-the-fly switching between different modules
- Perfectly suited to lossless image & FFT transforms
- Not tied to any one platform

Lustre®

Not tied to any one architecture

Thank You.
princeps@nyriad.com

we make every bit count
